

National Roll-out of Backer-On 1 5/8" ***(Brands Part No. 23410)***

A second length is being introduced to the Backer-On fiber-cement board fastener line-up. The new SKU (ITW part #23410) is 1 5/8" in length, packed 150 per box and includes a free square drive bit. The 1 5/8" length is for use with 1/2" Hardibacker board installations, while the current 1 1/4" length is for use with 1/4" Hardibacker board.

Additionally, this new sku will be introduced in a new reusable plastic box to provide lasting value to consumers.

This new SKU is now available at home centers throughout the U.S.
